NOTICE TO CUSTOMERS IN CANADA AND OTHER COUNTRIES OUTSIDE OF THE UNITED STATES

In remitting for purchases at the time of ordering, or when paying accounts by reason of the Exchange we ask that you please send P. O. Money Order in U. S. Funds or a check or draft on a New York or Philadelphia Bank in par U. S. Funds.

WE ESPECIALLY INVITE CHARGE ACCOUNTS

A charge account is more convenient than to remit for each order at the time it is sent us; you pay no more for your goods by reason of this accommodation. As to our responsibility, we refer you to Dun and Bradstreet's Mercantile Agency or any bank or trust company.

When sending your first charge order, refer preferably to someone in either your own or our line of business with whom you have a charge account. This frequently saves delay.

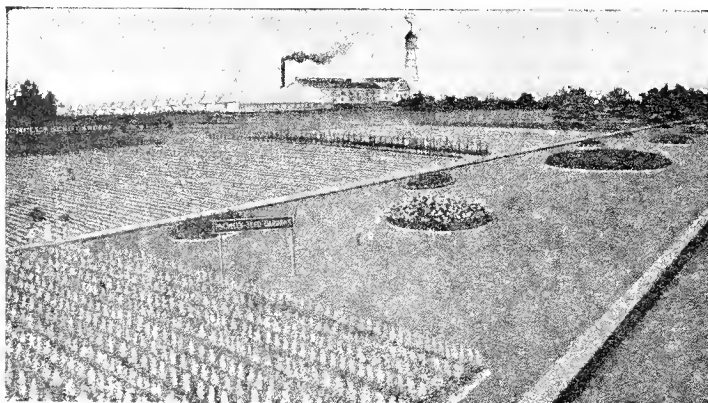

DISCOUNTS

On bills for Flower Seeds, Vegetable Seeds and Bulbs, a discount of 2% for payment 10 days from date of bill may be deducted; 5% cash discount is allowed on all orders of Flower Seeds and 3% cash discount on all orders of Vegetable Seeds and Bulbs when remittance accompanies the order, unless on items specially quoted or priced. Cash discount above does not apply to dealers' orders, unless so stated in quotations or otherwise. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.

CONDITIONS OF SALES

All contracts, sales and acknowledgments of orders are contingent upon crop failures, our ability to import and make deliveries in conformity with the "Plant Quarantine Act," partial deliveries by growers or manufacturers, strikes, or other unavoidable causes beyond our control, clerical errors included; also unsatisfactory credit standing. All quotations are subject to market changes and goods being unsold on receipt of order.

Henry F. Michell Co. give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants or bulbs they send out, and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, he must notify us at once, and we will give instructions for disposition of goods.

SPECIAL NOTICE—We pay postage on all orders for Vegetable and Flower Seeds provided the order calls for packets, ounces, quarter pounds or pounds (beans, corn, peas and grass seeds, bulbs, plants and sundries are not included). If these are wanted by mail, remit for postage the amount named in connection with the item to the first and second zones; for other zones add additional postage. All postage is charged on dealers' orders regardless of items ordered.

PARCEL POST RATES.—On Seeds, Bulbs, Plants or Roots not exceeding eight (8) ounces in weight, the postage charge is 1c. for each two (2) ounces or fraction thereof; on sundries or other merchandise not exceeding eight (8) ounces in weight, the postage charge is 1½c. for each two (2) ounces or fraction thereof. Seeds, Bulbs, Plants, Roots, Sundries, etc., weighing over eight (8) ounces, are sent at zone rates.

If Special Delivery is wanted an additional 15c. is required on packages weighing up to two (2) pounds—25c. on packages weighing more than two (2) pounds and up to ten (10) pounds—35c. on packages weighing more than ten (10) pounds, which also includes special handling and transportation as first-class mail.

If remittance accompanies order, a sufficient amount should be included to cover the extra charges—if ordered to be sent by either of the methods as stated above.

We do not make shipments of Plants or Cold Storage Bulbs C. O. D. and shipments of goods C. O. D. outside of our automobile delivery limits can only be made that way provided a partial remittance is sent with the order to guarantee that the goods will be accepted on arrival.

IMPORTANT NOTICE.—All shipments of plants, perishable stock and cold storage bulbs are made at buyer's risk only.

If such shipments arrive in bad condition, accept them and receipt for them accordingly, and make claim for your loss on the transportation company. We, of course, will hold ourselves ready to assist you in any possible way. It has been found that claims can be collected more readily by the person receiving the goods than by the shipper.

Our custom to guarantee the actual arrival of goods (except at points where there is no freight or express agent) will still be continued, and claims for loss or non-arrival of merchandise not perishable will, as in the past, be cared for by us, so you run no risk of having to make claims for lost goods.

Please note parcel post charges quoted by us are for delivery in the United States only.

FLOWER SEEDS FOR 1936

FOR GENERAL LIST OF FLOWER SEEDS SEE PAGES 6 TO 32

RUST-PROOF ANTIRRHINUM (Snapdragon)

After years of intensive work in an attempt to produce a strain of rust-proof Antirrhinums, we are glad to announce that the above has been achieved. This strain has proved excellent under extensively wet outdoor conditions; they have stood the tests and are better than 75% rust-proof. For growing outdoors for cutting or bedding, they will prove excellent; we hope in the near future to have a strain suitable for forcing under glass.

The following four varieties are 1936 introductions and are of the maximum type and make ideal subjects for cutting. Each plant produces from 15 to 18 spikes, which are non-lateral, with flower heads 10 to 14 inches long; they are of vigorous growth with broad, dark green foliage and are practically immune from rust.

CAMPFIRE. A new color in Antirrhinums, being a pure luminous scarlet, free from orange or bluish tinges; the individual blooms are closely spaced on strong spikes. Trade pkt., 50c.; \$1.25 per $\frac{1}{16}$ oz.

CANARY BIRD. Color a brilliant canary yellow, with the flowers very closely spaced on the stem. Trade pkt., 50c.; \$1.25 per $\frac{1}{16}$ oz.

COPPER SHADES. This variety is outstanding in the maximum group, due to the considerable number of orange and copper shades. Trade pkt., 50c.; \$1.25 per $\frac{1}{16}$ oz.

LOVELINESS. This variety should become a great favorite as it is a most attractive pure soft rose pink. Trade pkt., 50c.; \$1.25 per $\frac{1}{16}$ oz.

CRIMSON. Color pure crimson overlaying a ground of orange, giving the effect of a fiery crimson; foliage and stem dark plum color; a very strong grower with huge individual flowers and flower spikes. Trade pkt., 50c.; \$1.25 per $\frac{1}{8}$ oz.

SHASTA. Color pure white and the same type flower and habit as Ceylon Court; very early and exceedingly free flowering. Trade pkt., 50c.; \$1.25 per $\frac{1}{8}$ oz.

UNIVERSITY OF CALIFORNIA MIXTURE. A splendid combination of colors, the result of extensive crosses, making this a really fine mixture. Trade pkt., 40c.; \$1.00 per $\frac{1}{4}$ oz.

FUSARIUM WILT RESISTANT ASTERS

We take pleasure in offering the following varieties of Wilt Resistant Asters. These we believe to be practically immune to this disease. We feel sure that by using this seed many disappointments due to crop failures will be eliminated.

NOVELTY VARIETIES

GOLDEN SHEAF. The deepest yellow Aster yet introduced and the only one that is wilt resistant; the flowers are fully double, with an attractive crest-like center, of good substance and fine depth of petal; long stemmed and excellent shippers. Trade pkt., 40c.; \$2.25 per oz.

GIANT COMET, SALMON QUEEN. Clear, pure salmon, blending to a rich golden salmon at the center; the flowers large and well formed are of the feathery Comet type on long stemmed, early flowering upright plants. Trade pkt., 40c.; \$2.25 per oz.

GIANT COMET, BLUE FLAME. Color, bright navy blue, distinct from any other blue Aster now offered; flowers are fully double with long stems; splendid for cutting. Trade pkt., 40c.; \$2.25 per oz.

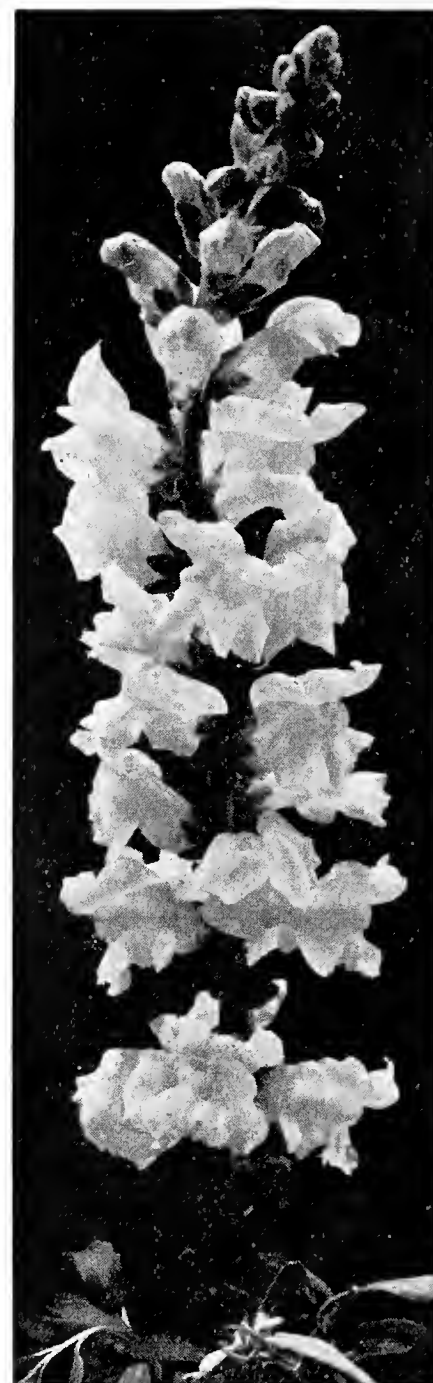

Calendula, New Orange Shaggy

NOVELTY ASTER

New Super Giant, Los Angeles

ALL DOUBLE VICTORIOUS MIXED

A Giant Petunia, which produces 100% double flowering plants. The habit of growth is very dwarf and compact, the flowers large and fully double, in many brilliant and fancy colorings. Very free flowering; an exceptionally fine type for pot culture, as the plants seldom grow more than 10 inches in height.

Nasturtium, Dwarf Double, Golden Globe

Miniature Petunia, Rose Gem

PETUNIA, MINIATURE, ROSE GEM

(1936 Novelty) (Waller-Franklin)

All America Winner, Award of Merit

Rose Gem is a charming addition to the new miniature group of Petunias which was started with Pink Gem. Rose Gem is the color which the public has been asking for in this miniature form; it is the rich, deep rose that has made Petunia, Rose of Heaven so popular. The plant is neat and compact, 5 to 6 inches high and smothered with rich rose-colored blooms about 2 inches in diameter. Originator's description.

Half trade pkt., 60c.; \$1.00 per trade pkt.; $\frac{1}{4}$ oz., \$1.75; \$3.00 per $\frac{1}{2}$ oz.

SMALL FLOWERING PETUNIA

ROSY MORN IMPROVED

A decided improvement on this popular variety; flowers brighter in color and considerably larger; much superior to the old variety.

Half trade pkt., 40c.; 75c. per trade pkt.; oz., \$3.50

POPPY CAVALCADE DOUBLE SHIRLEY

(Novelty)

Double Shirley Begonia flowered, rich brilliant orange scarlet; most attractive and splendid for floral arrangements.

Trade pkt., 25c.; \$1.00 per oz.

NOVELTY SWEET PEAS FOR 1936

EARLY OR WINTER FLOWERING

Bridesmaid. A delicate, sparkling shade of silver pink; as vigorous and healthy and as slim and supple as the name implies. Bridesmaid bids fair to out-strip the field in popularity, as a cut flower, in a large table arrangement, large flowers, usually fours, on stems 14 to 16 inches long. An ideal variety for shipping.

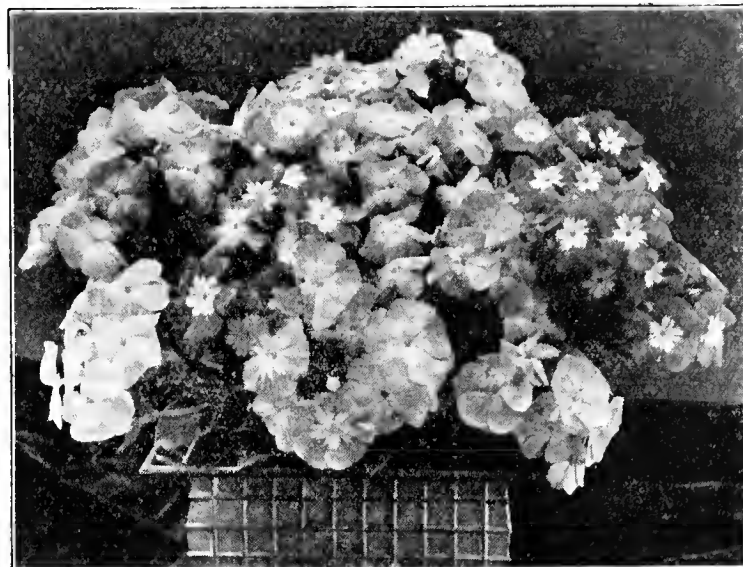

Per oz., \$1.50; \$5.00 per $\frac{1}{4}$ lb.; lb., \$18.00.

Sequoia. An enormous, rich golden cerise color; the flowers are so frilled and wings so widespread that unless one looks closely he mistakes a single flower for two; the folds of the petals have a tinge of russet. Free flowering and a strong, vigorous grower.

Per oz., \$1.50; \$5.00 per $\frac{1}{4}$ lb.; lb., \$18.00.

Shirley Temple. This Sweet Pea, which we consider the most beautiful we have ever originated, was obtained through a cross between Pinkie and Lady Gay. It has inherited blooms with the size and richness of color in Pinkie, plus the dainty frilled and fluted flowers of Lady Gay. The color is softer and more beautiful than Pinkie; stems long with four very large blooms on each stem. Above is originator's description.

Per oz., \$2.00; \$7.00 per $\frac{1}{4}$ lb.; lb., \$20.00.

Phlox Drummondii, Gigantea

PHLOX DRUMMONDII GRANDIFLORA

GIGANTEA, ART SHADES

(1936 Novelty)

A new strain with flowers $1\frac{1}{4}$ to $1\frac{1}{2}$ inches in diameter. In addition to its enormous flowers (which in itself would be enough to justify it as a novelty) it has a most wonderful range of color in soft art shades, such as salmon with white eye, deep salmon with cream eye, apple blossom, soft rose with white eye, light blue with white eye, pale violet with white eye, light mauve with cream eye, rose with white eye, and many other pleasing art shades. Plants about 9 inches high. Choice mixture only.

Trade pkt., 50c.; \$3.50 per oz.

NEW SCABIOSA

GIANT FLOWERING HYBRIDS

Flowers of giant size; heads conical in shape; free flowering, with long stems; the mixture contains many new and rare shades.

Trade pkt., 25c.; \$1.00 per oz.; $\frac{1}{4}$ lb., \$3.50

VENIDIUM

FASTUOSUM HYBRIDS (New)

A splendid annual from Africa. Free flowering; grows 2 to 3 feet high and blooms over a long period; fine for cutting, with a varied color range from apricot to a deep golden orange.

Trade pkt., 50c.; \$1.25 per $\frac{1}{4}$ oz.

ZINNIA, FANTASY OR CHRYSANthemum FLOWERED

MIXED COLORS

A new Zinnia; the rounded flowers are composed of a mass of shaggy ray-like petals, which give a delicate and refined appearance to the medium-sized double flowers. The color range includes the brightest of red and orange, as well as the popular pastel pinks and cream.

Trade pkt., 40c.; \$2.00 per oz.

ZINNIA, DESERT GOLD

A large flowering type in shades of yellow and gold, each petal overlaid at the base with a deeper color, giving a charming bicolor combination.

Trade pkt., 40c.; \$2.00 per oz.

We wish to emphasize the fact that our Asters are grown for us by specialists, and nearly all varieties under our own supervision. **MicHELL's "Distinctive" Quality** is nowhere more prominent than with our Asters, and we can recommend them with the utmost confidence to produce the very best results. Our seed is grown from plants which are free from disease.

SPECIAL NOTE.—In growing Asters, old soil and flats should never be used the second time without thoroughly sterilizing, to avoid the numerous diseases to which Asters are so susceptible; barnyard manure should never be employed as a fertilizer; we recommend the use of finely ground bone meal. Asters should not be grown in the same location two years in succession.

FUSARIUM WILT RESISTANT STRAINS

We take pleasure in offering the following varieties of Wilt Resistant Asters. These we believe to be practically immune to this disease. We feel sure that by using this seed many disappointments due to crop failures will be eliminated.

This supremely beautiful new race of Asters is the result of a direct cross between California Giant and the Dwarf Sunshine type. The plants grow 3 feet high and bear blossoms 5 to 6 inches across, on long stiff stems. This new type of Stocks produces one enormous spike 2 to 3 feet in height and is especially adapted for greenhouse culture, as the plants can be grown close together; blooms about ten days earlier than Bismarck and produces a high percentage of doubles. MICHELL'S WINTER FLOWERING SPENCER OR ORCHID SWEET PEAS

Sweet Pea, Eileen

NOVELTY SWEET PEAS Early or Winter Flowering

Bridesmaid (1936 *Novelty*). A delicate, sparkling shade of silver pink; as vigorous and healthy and as slim and supple as the name implies. Bridesmaid bids fair to out-strip the field in popularity, as a cut flower, in a large table arrangement, large flowers, usually fours, on stems 14 to 16 inches long. An ideal variety for shipping. Per oz., \$1.50; \$5.00 per $\frac{1}{4}$ lb.; lb., \$18.00.

Sequoia (1936 *Novelty*). An enormous, rich golden cerise color; the flowers are so frilled and wings so widespread that unless one looks closely he mistakes a single flower for two; the folds of the petals have a tinge of russet. Free flowering and a strong, vigorous grower. Per oz., \$1.50; \$5.00 per $\frac{1}{4}$ lb.; lb., \$18.00.

Shirley Temple (A new introduction). This Sweet Pea, which we consider the most beautiful we have ever originated, was obtained through a cross between Pinkie and Lady Gay. It has inherited blooms with the size and richness of color in Pinkie, plus the dainty frilled and fluted flowers of Lady Gay. The color is softer and more beautiful than Pinkie; stems long with four very large blooms on each stem. Above is originator's description. Per oz., \$2.00; \$7.00 per $\frac{1}{4}$ lb.; lb., \$20.00.

Eileen. Rich Begonia rose with salmon shadings, changing under certain lights to a dazzling cerise. This two-tone effect gives it a brilliancy never before obtained in a Sweet Pea. Per oz., 50c.; \$1.75 per $\frac{1}{4}$ lb.; lb., \$6.00.

Sweet Briar. A mammoth flowering rich rose pink on a white ground, with a touch of amber; the harmony of this combination is rich and gorgeous. Per oz., 50c.; \$1.75 per $\frac{1}{4}$ lb.; lb., \$6.00.

Our connections with the best grass seed producers in America and Europe place us in a position of advantage for our supplies, chiefly because of the great volume of grass seeds we contract for. Some people have an idea that price is the only factor to consider in grass seed buying; while this has its place, it should be an afterthought. "Quality is paramount." We are always pleased to submit samples with prices for comparison and let our customers be the judge.

QUANTITY OF LAWN SEED REQUIRED FOR A GIVEN SPACE

To secure best results we advise sowing on new ground with no sod on, 6 to 8 bushels (20 lbs. per bushel) to an acre; on established lawns or grass plots usually one half the quantity is sufficient. On a smaller scale, 1 quart for 100 square feet; 1 peck for 1000 square feet; 1 bushel for 4000 square feet; for putting greens we advise 100 lbs. of seed to a green 100 x 100 feet; for fairways 8 to 10 bushels (20 lbs. per bu.) to the acre; for pastures and hayfields 80 to 100 lbs. per acre.

If Mixed Grass Seeds are wanted by Parcel Post, add for postage as follows: 10c. for 2 qts.; 10c. for 4 qts.; 15c. per peck; 20c. per $\frac{1}{2}$ bu.; 30c. per bu.; larger quantities by express or freight.

HARDY CHRYSANTHEMUM, PINK CUSHION

A REAL GEM FOR THE ROCK GARDEN OR BORDER

One of the most admired Chrysanthemums; a solid compact grower, flowering from first of October until frost. Color a beautiful shade of pink. Due to its color and its compact growth we believe at this time there is no other variety as effective in rock garden, landscape or border planting.

Price, 2-inch pot plants, ready in April, \$1.00 per 10; per 100, \$8.00; \$70.00 per 1000.

THE FAMOUS NEW KOREAN HYBRID CHRYSANTHEMUMS

Apollo. Superb Autumn color, a sparkling combination of bronze, red and gold, suffused with glowing salmon; the flowers, 2 inches across, are produced in immense sprays.
Ceres. A lovely combination of old gold, chamois yellow and soft coppery bronze. The mature flower petals appear to have been dusted with gold.
Daphne. A new shade of pink to the Chrysanthemum, an exquisite blending of daphne pink with an underlying sheen of lilac rose, with golden stamens; flowers 3½ inches across.
Diana. Chantenay rose pink, mingled with lilac rose to soft salmon, the tones of which vary with the degree of light.
Mars. For those who prefer depth and brilliancy of color in the garden. Deep amaranth red, changing to wine red, overlaid with a velvety sheen.
Mercury. The nicely formed, 3-inch flowers open bronze red and change to coppery bronze as they mature; the sprays when cut keep exceptionally well.

Price, 2-inch pot plants, ready in April, \$1.50 per 10; per 100, \$12.00; \$100.00 per 1000.
